

Amendment to a Director's Order

Director's Order 205: Training Requirements for Refuge's Federal Wildlife Officers
Date signed: 08/06/2012
Amendment Number: 1
Purpose: This amendment removes the language requiring a Single Scope Background Investigation (SSBI) for Federal Wildlife Officers (FWO). SSBI investigations are no longer required, so a favorable Background Investigation (BI) is adequate.

Action 1:

Under section 7f, remove the requirement for a Single Scope Background Investigation (SSBI), replacing the section with the following language:

"f. Position Sensitivity and Investigations: The person must pass a background Investigation (BI). See section 8.c below for information about waivers."

Action 2:

Under section 8c, remove the SSBI requirement, replacing the section with the following language:

"c. The BI is favorable. However, if the trainee has initiated their BI, a "Request for Waiver of Pre-Appointment Investigative Requirement for a Critical-Sensitive Position," (Form DI-1912) may be submitted for approval. The Chief – Branch of Training must receive certification that the trainee has a favorable BI or an approved waiver in EQuip (the Office of Personnel Management's personnel inventory data system) before the trainee may begin training."

James W. Kautz

Deputy DIRECTOR
